

HELP WANTED/CLASSIFIED ADS

Help Wanted

City of Alexandria – 2 Positions

Crew Supervisor, Water Distribution

The City of Alexandria, LA is seeking individuals with experience in water distribution or treatment that are interested in working for an employer that provides outstanding benefits, such as high employer retirement contribution; sick and vacation leave; health, dental, vision, and supplemental insurances.

Kind of Work

The purpose of this classification is to perform technical tasks at the supervisory level on an assigned shift performing various construction, repair, maintenance and operational activities in support of the Water Department of the City of Alexandria.

Salary Range: \$37,398.40 – \$44,865.60

Minimum Applicant Qualifications:

DESIRED QUALIFICATIONS

- Five (5) years of progressively responsible experience in water distribution or treatment; or any equivalent combination of education, training, and experience which provides the requisite knowledge, skills, and abilities for this job.
- Depending on area of assignment, must possess and maintain valid State of Louisiana Class IV Water Distribution certification, or Class IV Water Production and Treatment certifications.

NECESSARY SPECIAL REQUIREMENTS

- High school diploma or GED. Candidates with lesser certifications may be considered depending upon their previous work history, level of certification, and needs of the department.
- Such candidate(s) selected for hire must enter into a written transition plan to achieve certification as a Class IV Distribution Operator or Class IV Water Production and Treatment Operator.
- Will be required to obtain and maintain specialized certifications and/or training as deemed necessary.
- Must possess a **valid Class D driver's license**.
- Will be required to obtain a valid State of Louisiana Class D driver's license at time of appointment and maintain throughout employment for this classification.

Work Schedule: 5 Days a Week, 40 Hours per Week (Duty Week Every 4 Weeks to Include Weekends)

Assistant Superintendent, Wastewater

The City of Alexandria, LA is seeking individuals with progressively responsible supervisory experience in wastewater utility operations that are interested in working for an employer that provides outstanding benefits, such as high employer retirement contribution; sick and vacation leave; health, dental, vision, and supplemental insurances.

Kind of Work

The purpose of this classification is to perform technical tasks at the managerial level to provide assistance in overseeing construction projects, maintenance activities and general operations of the Wastewater Department including the treatment facility, system lines, manholes, sewer pump stations and storm water pumping system of the City of Alexandria. This position is subject to 24-hour call.

Salary Range: \$45,198.40 - \$54,246.40

Minimum Applicant Qualifications:

DESIRED QUALIFICATIONS

- Bachelor's Degree from an accredited college or university in Civil, Chemical, or Environmental Engineering or related field; supplemented by three (3) years of progressively responsible supervisory experience in wastewater operations, to include sludge handling and disposal, wastewater rehabilitation processes and related experience; or any equivalent combination of education, training, and experience which provides the requisite knowledge, skills, and abilities for this job.

- Must possess and maintain valid State of Louisiana Class IV Wastewater Treatment and Collection certifications.

NECESSARY SPECIAL REQUIREMENTS

- Candidates with Class III certifications may be considered depending upon their previous work history and needs of the department.
- Such candidate(s) selected for hire must enter into a written transition plan to achieve certification as a Class IV Wastewater Collection and Treatment Operator.
- May require additional certifications and/or training as deemed necessary.
- Must possess a valid driver's license.
- Will be required to obtain a valid State of Louisiana driver's license at time of appointment and maintain throughout employment for this classification.

Work Schedule: M – F, 7 AM to 3:30 PM, Subject to 24 hr. call

Help Wanted

Senior Service Technician -- Cortland Partners -- Baton Rouge, LA

Role Overview

At Cortland Partners, you map the story of your success. We don't adhere to the status quo, we love outside industry perspective, and we thrive on exploring possibilities and reimagining solutions. As an innovative leader in multifamily, our high performance continues to drive exponential growth – and we invite you to join us on our journey towards real estate excellence. With tools and guidance to sharpen your skills, you can forge your own career path, love what you do, and let it show.

As a Senior Service Technician, you maintain the physical integrity of a multimillion dollar, multifamily apartment home community for residents, visitors, and associates alike.

Roles You'll Play

THE SUPERHERO

- Seem to have superpowers because you know how to diagnose and fix pretty much anything — electrical, plumbing, HVAC, gas, appliance, structural, lighting, and security systems
- Demonstrate your knack for repairs and set the example for all your fellow Maintenance Technicians
- Make your community a higher functioning and more efficient place for residents to call home
- Combat Facilities and Services challenges by performing routine preventive maintenance and making sure all tools are in perfect condition

THE CARETAKER

- Do whatever it takes — fixing a leak, repairing damage in a vacant unit, or removing abandoned furniture and appliances — to keep your community in tip-top shape
- Eliminate disarray, disrepair, and chaos to keep your community running like a well-oiled machine
- Make residents feel confident you will be there for them if something in their apartment breaks

THE OUTDOORS ENTHUSIAST

- Always looking for an excuse to be outside — not a fan of sitting in a cubicle
- Welcome opportunities to roll up your sleeves and get your hands dirty
- Not intimidated by extreme weather, sewage, or heights
- Happy to be on your feet most of the day, walking long distances, working on roofs, lifting up to 75 pounds, and operating machinery

Our Vision of What Success Looks Like

- Residents feel completely confident that all community maintenance issues will be repaired quickly and effectively.
- Service requests are at an all-time low, thanks to all your preventive maintenance and quick repairs.
- Your community looks perfect. Common areas are spotless, the grounds are beautiful, and curb appeal is worthy of a magazine cover.

Your Building Blocks of Success

- Solid record of carpentry, plumbing, and electrical repair experience
- Physical agility and mobility
- Resourceful problem solver
- Ability to interact with customers professionally and enthusiastically
- Current EPA, CPO, and HVAC certifications

The Foundation of Cortland Partners

At Cortland, we create, reimagine, and manage apartment communities for residents nationwide. Headquartered in Atlanta, GA, we have communities and regional offices all over the country, as well as overseas. From product design and procurement to general contracting and property management, we do it all – to make sure our communities are the perfect setting for living life to its fullest.

Our success is fueled by our belief in a better life – where hospitality is always a given, each detail is worth a second thought, and every open door is a new opportunity to go beyond expectations. We come to work every day to create possibilities for people – possibilities that translate into superior living spaces and experiences designed to inspire our residents, associates, and investors to live a better life focused on what matters most to them.

Cortland Partners is an equal opportunity employer, and we're proud to support and celebrate diversity in the workplace. We are committed to equal consideration for all qualified applicants regardless of race, color, religion, gender, sexual orientation, gender identity or expression, national origin, age, disability, protected veteran status, genetic information, or any other characteristic protected by applicable law. If you have a disability and need an accommodation or assistance with the application process and/or using our website, please email talentresources@cortlandpartners.com or call 404.965.3988.

Cortland Partners is a drug-free workplace. Cortland Partners participates in e-verify to verify the employment status of all persons hired to work in the United States.

Help Wanted

Wastewater Maintenance Technician/Operator – Rosepine, LA

The **Town of Rosepine** is accepting applications for a Wastewater Maintenance Technician/Operator. Please come by the Rosepine Town Hall, 18846 J.B. Hall Memorial Hwy, Rosepine, L.A. for an application, drop off a resume, or email resume to eve@townofrosepine.com.

Job Overview: The Maintenance Technician/Operator is responsible for operation and preventive maintenance for wastewater system, collection and treatment, grass maintenance, and mechanical equipment.

Key Responsibilities/Accountabilities:

- Position will hold responsibility for performing technical work in maintaining, repairing and upkeep of pumps, and wastewater facilities, including building structures.
- This position is responsible for maintenance and minor repairs to wastewater equipment and keeps in compliance with state regulations.
- Performs operator functions at lift stations and wastewater treatment plant. Performs scheduled and emergency repairs and maintenance of all water plant equipment, and associated equipment in wwc, and wwt facilities.
- Performs preventive maintenance and services program lift station buildings, grounds and machinery by using a variety of hand tools and power tools in semiskilled work.
- Perform operator maintenance on generators.
- Must be able to operate trucks and high-pressure water cleaning equipment.
- Maintains daily operational and maintenance logs and records for wastewater facilities.
- Repair or replace water lines when necessary.
- Repair or replace pumps.
- Read plans, maps, and schematics related to wastewater.
- Perform all work in accordance with local, state, and federal laws, rules, and regulations and in compliance with all departmental safety policies and procedures. This includes using appropriate safety devices and equipment.
- May be required in emergency situations to report to work during unscheduled time.
- To the extent of ability, use a variety of hand tools, such as drills, wrenches, shovels, etc., and power tools, such as, chain saws.
- Will assist water operator with help on emergency maintenance issues.

Basic Qualifications:

- High School Diploma Required
- Prefer experience
- Prefer at least level 1 Operator License or be willing to obtain the License within one year of employment.
- Must possess a valid Louisiana State driver's license.
- Physical strength and ability sufficient to perform heavy manual labor for extended periods under wet, cold, and generally unpleasant conditions.
- Ability to wear all required safety and protective gear and equipment.
- Basic knowledge and ability to read equipment instruction and maintenance manuals,
- Ability to make rapid and sound decisions in the event of extraordinary situations such as equipment malfunctions or power outages to protect public health and equipment. Frequently required to exercise this judgment while unsupervised.
- Must be able to pass drug screening.

Other Details:

- The nature of this position requires this person to be subject to call 24 hours per day on a rotating basis including weekends and holidays.
- Depending on the task being performed, the environment may be wet, muddy, dark, cold or hot, conditions. Much of the work is performed outside in all kinds of weather conditions.
- Individuals may perform other duties as assigned, including work in other functional areas to cover absences or relief, to equalize peak work periods or otherwise to balance the workload

For Sale

We would like to run an ad for the sale of the attached pump motor. To follow are the specifics:

1. Sale amount \$2,000
2. Item: Used Crown Triton Electric Motor & Pump
3. This electric motor was put into service 11/19/2015 and cost \$4,185 new. The pump failed and needed a full rebuild. We decided to purchase a vertical motor and pump rather than rebuilding the pump. The old pump will go with the motor at no charge and may be rebuilt or used for parts. Specifications for the Crown Triton electric motor are on the picture of the data plate.
4. Please contact Dale Powell at 318-649-3764 if interested or to request photos.

Thank you in advance for your assistance.

Dale Powell, President
East Columbia Water District
(O) 318-649-3764
(F) 318-649-3765

Help Wanted

Water Operator/Maintenance Technician --- Pay: \$21-\$22/hr
Location: Minden, LA

Job Overview:

APTIM have an opening a Maintenance Technician/Operator who will be responsible for operation and preventive maintenance for wastewater treatment plant, wells, mechanical equipment and building structures, standby generators and outside telephone lines for the facilities.

Key Responsibilities/Accountabilities:

- Responsible for the mechanical and electrical systems portion of the plant.
- Position will hold responsibility for performing technical work in maintaining, repairing and upkeep of wastewater
- Collection lift stations, water wells and water and wastewater facilities, including building structures.
- This position is responsible for maintenance and minor repairs to water and wastewater equipment.

- This position will hold the responsibility for maintaining outside telephone lines and providing operator maintenance on several standby generators.
- Additionally, this position will act as a water distribution and wastewater treatment operator as a secondary function.
- The nature of this position requires this person to be subject to call 24 hours per day on a rotating basis including weekends and holidays.
- Daily Health and Safety observation
- Daily/monthly record keeping

Basic Qualifications:

- Must have Louisiana Class 2 Wastewater Operator License.
- Persons who also have Louisiana Class 2 Water Operator License preferred.
- Must possess a valid State driver's license.
- Must be able to apply basic knowledge of water and wastewater treatment to the existing systems, equipment, and facilities.
- Must have a strong basic knowledge of mechanical, electrical, pneumatic, and hydraulic theory and application, and be able to use manuals and other resources to apply that knowledge in water and wastewater treatment operations and other diverse requirements of the job.

Company Overview:

APTIM was created by Veritas Capital, a leading private equity firm, following acquisition of CB&I's Capital Services business. With approximately 15,000 employees deployed across hundreds of offices and customer sites globally, APTIM provides integrated maintenance services, environmental engineering and remediation, infrastructure, EPC services, program management, disaster response and recovery, resiliency planning, and energy management services for private sector and government customers. Our timely and cost-effective solutions not only satisfy our customers' needs, but also improve the quality of life for people around the world.

FLSA Status: Nonexempt Reports to: VP of Sales

Position Summary:

Properly and safely operate the wastewater treatment plant to treat or transfer water or wastewater

Job Duties & Responsibilities:

- Adds chemicals, such as chlorine, to disinfect water or other liquids
- Inspects equipment on a regular basis
- Monitors operating conditions, meters, and gauges
- Collects and tests water and wastewater samples
- Records meter and gauge readings and operational data
- Operates equipment to purify and clarify water or to process or dispose of wastewater
- Cleans and maintains equipment, tanks, filter beds, and other work areas
- Performs preventive maintenance procedures on equipment on a scheduled basis; inspects belts, checks fluid levels, replaces filters, greases bearings, seals, etc.; repairs or replaces broken parts using a variety of hand tools and power tools in semi-skilled work.

- Completes daily, weekly, and monthly DEQ checklists and Preventive Maintenance Schedules and maintains records of scheduled maintenance procedures
- May operate a computer and/or control board which controls and monitors mechanical equipment and utility systems
- May repair electrical locks and control panels to maintain equipment functionality
- Responds to emergency requests as required
- Follows U.S. Environmental Protection Agency and Department of Environmental Quality regulations
- Shall be responsible for reporting and taking any necessary action to prevent food safety and quality problems and safety incidents and accidents from occurring
- Relieve other Wastewater Treatment Operators if absent from work
- Follow all policies and procedures including GMPs, SOPs, and SSOPs at all times
- Must wear appropriate PPE at all times
- Performs other related duties as assigned by Manager
- All employees are responsible for food safety and quality
- Oversees the work of the Secondary Operator.

Job Requirements:

- High School Diploma or equivalent
- 2+ years of experience in wastewater treatment operations necessary
- Louisiana License/Certification (Class 1) required
- Ability to apply basic knowledge of water and wastewater treatment
- Capacity for sustained attention to functioning machinery and equipment. Good sensory perception to monitor plant machinery and operations visually, audibly, by smell and by touch (for temperature and vibrations) on an ongoing basis.
- Ability to accurately record data
- Ability to read and basic knowledge of equipment instruction and maintenance manuals, drawings, schematics and blueprints.
- Ability to add, subtract, multiply, and divide in all units of measure, using whole numbers, common fractions, and decimals
- Ability to compute rate, ratio, and percent and to interpret miscellaneous drawings and schematics
- Ability to regularly lift/move up to 50 pounds independently
- Good skill in the use of hand and power tools
- Physical stamina and agility sufficient to stand, walk, climb stairs, kneel and bend and engage in similar physical activities as required for virtually the entire shift
- Must be able to work in a wet environment with some exposure to toxic or caustic chemicals
- Must be able to work with exposure to moving mechanical parts
- Must be able to work in high, precarious places; with fumes or airborne particles; outside weather conditions; risk of electrical shock; vibration; moderate to occasionally loud noise level
- Maintain constant mental focus and constantly be aware of surroundings
- Be able to effectively work in a team environment
- Excellent verbal and written communication skills
- Ability to handle multiple tasks simultaneously
- Ability to effectively present information in one-on-one and small group situations to other employees of the organization
- Skilled in organization and prioritization and attention to detail
- Must be able to work flexible hours including overtime, weekends, and holidays

- Must be able to pass all medical exams and drug and background checks (including criminal)

Other Details:

- The nature of this position requires this person to be subject to call 24 hours per day on a rotating basis including weekends and holidays.
- Depending on the task being performed, the environment may be wet, muddy, dark, cold, hot, noisy, wet or slippery. This work is performed outside and is subject to all kinds of weather conditions.
- This work can be stressful due to need to make quick decisions to avoid equipment damage or detrimental results.
- Individuals may perform other duties as assigned, including work in other functional areas to cover absences or relief, to equalize peak work periods or otherwise to balance the workload.
