Sewerage and Water Board of New Orleans Senior Principal Engineer – Wastewater Treatment \$116,110 plus benefits

The Sewerage & Water Board of New Orleans is seeking a talented **Senior Principal Engineer** to join our Wastewater Treatment Division. The compensation for this position is \$116,110 per year based on qualifications. A listing of the excellent benefits that come with this position can be found here: [Benefits Summary 2022](#). This is a 35-hour per week salaried position.

Examples of Work

An employee in this class participates with engineering and operations managers in the planning of municipal improvements. Work includes acting as project manager or technical expert on large and complex projects and preparing contracts and reports. Work also includes coordinating assigned activities with other divisions, outside consultants, contractors, engineers, and outside agencies; performs other related duties as required.

A principal engineer in **wastewater treatment** would be responsible for overseeing the operation and maintenance contract at both wastewater treatment plants (WWTPs). This includes overseeing operations, preventive maintenance, major repairs, and capital projects. For detail list of job duties, contact Ann Wilson, see contact information below.

Required Qualifications

1. Registration as a professional Engineer and license to practice in Louisiana.

IMPORTANT: Out-of-state registrations are acceptable. However, any applicant who is not registered as a professional engineer in Louisiana must, if hired, show proof of such registration during his or her probationary period. No person may receive permanent status until this requirement has been met, and no probationary period may extend longer than one (1) year.

AND EITHER:

2. Permanent status as a Principal Engineer and two (2) years of full-time experience in that classification

OR

3. Four (4) years of professional experience as an Engineer. (Professional Engineering experience is experience gained following registration as a professional engineer.

To apply, see link below.
