Job Opportunities

Help Wanted

Jacobs – Wastewater Operator

At Jacobs, we challenge what is currently accepted, so we can shape innovative and lasting solutions for tomorrow. Through the delivery of our operations and maintenance services, you'll make it simpler and more seamless for our municipal clients to operate safely and efficiently, empowering communities to focus on what matters most to them – people.

As a **Wastewater Operator**, you'll join a collaborative team ensuring that our clients can deliver their services – uninterrupted. Based in **Baton Rouge, LA (North Plant)**, you'll perform a variety of tasks in the operation and maintenance of a wastewater treatment plant. You'll contribute to the success of our program with efficient preventive maintenance, establishing and maintaining effective sample procedures of plant operations and effluent, and providing effective solutions to complex challenges that may arise. You'll diagnose operating problems, make process control adjustments, direct and perform necessary corrective action. You'll also prepare reports, collect samples, perform laboratory testing, determine proper chemical flow rates, maintain shift logs and perform other duties as required. Most importantly, you'll take action to ensure the safety, health and well-being of you and your team.

Here's what you'll need

- State of Louisiana Level II Wastewater Operator License is required
- Experience in operating wastewater treatment plants
- Possess a valid driver's license with no major infractions

Ideally, you'll also have

- State of Louisiana Level III Wastewater Operator License preferred or ability to obtain through within 12 months of hire
- Basic familiarity of the principles and practices of water/wastewater treatment plant operations; operating principles of valves, pumps, and motors; principles and methods of bacteriological and chemical sewage analyses; effects and problems of industrial waste in water/wastewater treatment processes; safe work practices
- Knowledge of computer software including but not limited to Microsoft Office Suite, data management systems and be able to operate plant PLC's and SCADA systems

Our health and welfare benefits are designed to invest in you, and in the things you care about. Your health. Your well-being. Your security. Your future. Employees have access to medical, dental, vision and basic life insurance, 401(k) plan, paid time off (allocated plans start date 17 days per calendar year), seven paid holidays, and caregiver leave and the ability to purchase company stock at a discount as well as legally mandated benefits.

The base salary range for this position is \$48,300.00 to \$65,000.00; though will be paid hourly based on hours worked. Within the range, individual pay is determined by work location and additional factors, including job-related skills, experience, and relevant education or training.
